# Congratulations on your wedding plans!

This is such an exciting time for you! You're planning one of the most special days of your life.

Here are some suggestions for tailoring your photography package and preserving your memories for the future.

## USBs...

Branded engraved wooden USBs can be purchased at a cost of £30 each, including postage and packaging. USBs come in a wooden presentation box with a sliding cover, in a black velvet pouch.

# 1-Hour Engagement Photoshoot...

Get used to being around the camera before the wedding and bag some special photos for your save-the-date cards and invitations! £300 in the Inverness area. Travel fees may apply for locations further afield. **£50 discount if you come to Resolis, my home patch on the Black Isle.**

# *Second Photographer...*

Capture the whole day from multiple angles and secure coverage of your guests while you're busy with your couple's portrait session. You'll receive an additional 200 images for a fee of £650, to cover the second photographer's fee in addition to my extra time in post-production.

**Please read on for an alternative...!**

# *Extended Coverage with Karen Thorburn Photography...*

Here are the challenges I face when trying to secure you a second photographer: 1) finding someone who has enough experience and whose work is up to scratch, but isn't tied up with their own photography business; and 2) finding someone who will commit to your date and not pull out.

As an alternative to hiring a second photographer, you have the option of extending my time on the day. I'll start an hour earlier than usual, finish after the first six dances, and take a shorter break and work even harder than usual. Phew!

Of course, I can't be in two places at once, but one advantage of this approach is greater consistency across the photographs, with everything captured by myself. You can expect an additional 200 images for £400, to cover my extra time in post-production as well as on the day itself.

# Wedding Albums...

We're living in the digital age but it's absolutely vital to print your wedding photographs. Take a moment to think about the longevity of your images...

If you have a family, you'll want your wedding photographs to be passed down the generations, from your children to your grandchildren.

I believe your wedding album should have a timeless quality to it, and not look dated in future.

Sure, you could probably print something yourself through Tesco, but is this going to do justice to the pictures? Your wedding photographs deserve the best presentation possible.

## Traditional and Timeless...

I hope that digital files will stand the test of time, but it's not the same as having a beautifully presented wedding album.

I see a lot of wedding photographers producing very modern, glossy photo books but I confess I don't like them! I prefer traditional over trendy.

## Handmade and Luxurious...

I provide luxurious albums, handmade in the UK, with gorgeous oatmeal linen covers and gold foil embossing.

All the images are individually mounted and you can choose the text for your front cover (my logo will only appear inside, discreetly on the final page).

# Choosing the Right Album...

My albums come in a range of sizes, from a cute 6" x 6" Mini Album to an impressive 14" x 11" Deluxe Storybook.

Most of my couples go for something in between. The 30-page Deluxe Storybook 8" x 10" Classic Album is the most popular choice and is included with my Gold package.

Naturally, quality products come with a price tag to match. However, I've found a way to make these albums available to each and every one of my couples.

There's lots of flexibility with the Classic and Deluxe Storybook Albums in terms of the number of pages and image layouts.

I'll find a design that works for you and will gladly tweak it until it's absolutely perfect.

# *Wedding Wall Art...*

Vista Oak

Oxford Black

Oxford Gold

Oxford Silver

Just imagine how your friends will react when they enter your home and see your beautifully presented wedding photographs!

I supply luxury wall art, created in Scotland, using the highest quality lustre photographic paper and frames in a selection of finishes.

A range of sizes are available to suit different spaces within your home. I'll be delighted to email you a mock-up of your wall art before you proceed with your purchase.

I love the simplicity of the Vista Oak frame. It will complement your wall art perfectly (especially outdoor images captured in natural surroundings), without distracting from it. This frame features a smooth finish with a subtle wood effect.

Coordinate or contrast with the Oxford frames, available in black, gold or silver. These timeless frames feature a soft, matt-like finish, subtle wood effect and a sophisticated inner frame.
