# Thank you for booking a family photoshoot

This is such a special time in your lives.

Let's think about how best  
to preserve your memories  
for the future.

Albums...

# *Albums...*

We're living in the digital age but it's absolutely vital to print your photographs. Take a moment to think about the longevity of your images...

You'll want your family photographs to be passed down the generations, from your children to your grandchildren.

I believe your album should have a timeless quality to it, and not look dated in future.

Sure, you could probably print something yourself at the local shops, but is this going to do justice to the pictures? Your photographs deserve the best presentation possible.

## *Traditional and Timeless...*

I hope that digital files will stand the test of time, but it's not the same as having a beautifully presented album.

I see a lot of photographers producing very modern, glossy photo books but I confess I don't like them! I prefer traditional over trendy.

## *Handmade and Luxurious...*

I provide luxurious albums, handmade in the UK, with textured oatmeal linen covers and classic gold foil embossing.

All the images are individually mounted and you can choose the text for your front cover. My logo will only appear inside, discreetly on the final page.

# Choosing the Right Album...

My albums come in a range of sizes, from a cute 6" x 6" Mini Album to an impressive 14" x 11" Deluxe Storybook.

Most of my families go for something in between. My 8" x 10" Classic Album is the most popular choice.

Naturally, quality products come with a price tag to match. However, I've found a way to make these albums available to each and every one of my families.

There's lots of flexibility with the Classic and Deluxe Storybook Albums in terms of the number of pages and image layouts.

I'll find a design that works for you and will gladly tweak it until it's absolutely perfect.

# *Individual Albums...*

(scroll down for collections)

*Wall Art...*

# Wall Art...

Vista Oak

Oxford Black

Oxford Gold

Oxford Silver

Just imagine how your friends and family will react when they enter your home and see your beautifully presented photographs!

I supply luxury wall art, created in Scotland, using the highest quality lustre photographic paper and frames in a selection of finishes.

A range of sizes are available to suit different spaces within your home. I'll be delighted to email you a mock-up of your wall art before you proceed with your purchase.

I love the simplicity of the Vista Oak frame. It will complement your wall art perfectly (especially outdoor images captured in natural surroundings), without distracting from it. This frame features a smooth finish with a subtle wood effect.

Coordinate or contrast with the Oxford frames, available in black, gold or silver. These timeless frames feature a soft, matt-like finish, subtle wood effect and a sophisticated inner frame.
